Supported Connections

FOR ORGANIZATIONS

Friendship starts with you

An Android and iPhone app for adults with intellectual and developmental disabilities to explore shared interests, friendships and community life.

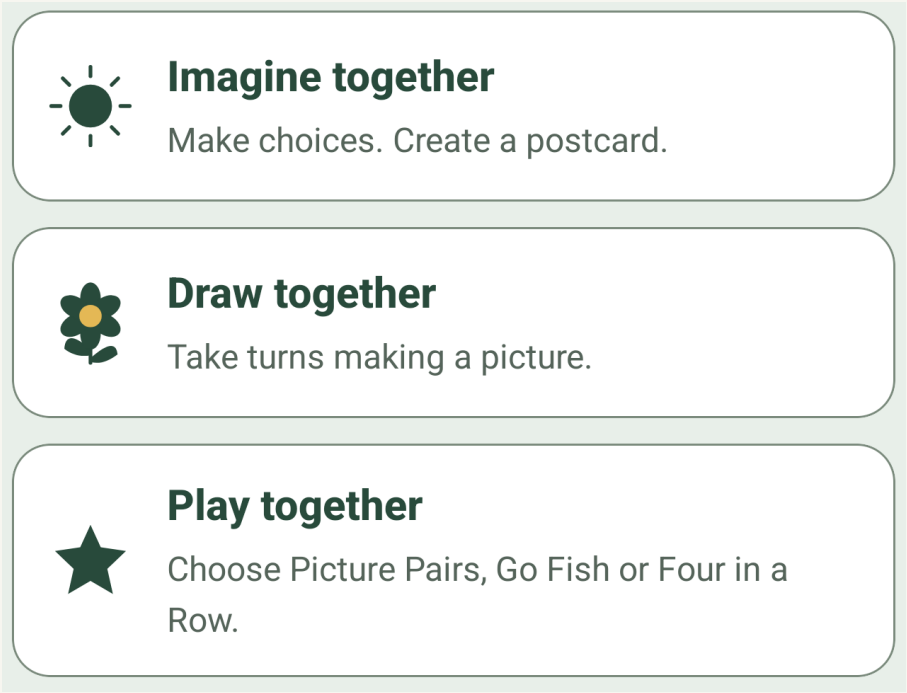

Explore a private demonstration

THE EXPERIENCE

Connect and share

Choose what to share on your profile. Messaging starts after both people agree to connect.

Enjoy Together

Together menu from private testing.
Appearance may change.

Discover community events

Explore events shared by a home organization or approved partner organizations.

CHOICE AND SUPPORT

Adult choice comes first

Adults choose who to connect with, whether to reply and which activities to share.

People can decline invitations, block contact or report a concern. Support should respect their decisions.

Organizations can help

Organizations can coordinate invitations and events. Plan onboarding, staff access, privacy and how people can ask for help.

YOUR NEXT STEP

See the app together

Arrange a private demonstration for your organization. See how the app works, ask questions and discuss how the service could help.

Plan participation together

- Who takes part, devices and chosen support.
- Timing, group size and a coordinator.
- Privacy, reporting choices, feedback and stopping.

Activity summaries describe app use. They do not measure friendship quality or wellbeing.
